Company Profile

Angle General Contracting was found in 1994, a totally specialized building construction company which is currently operating in the UAE.

Angle have developed through the years and is now a fully equipped construction company which means Angle does not source out any of its major activities.

Angle is a full house construction company with specialties in Civil, Mechanical, Electrical, Plumbing services and Oil & Gas.

We have full service capabilities to be a single source for all our construction projects. We take pride in offering our clients the best quality service and value for their investments.

Angle follows the completion of each project with a quality evaluation session to ensure constant growth; there is nothing more important or valuable than our reputation.

Quality, health & safety, schedules, attention to detail and professional management are of paramount importance to the company and its employees.

We are committed to maintain the highest quality, beat the time schedule and be cost effective with all the construction projects we undertake.

We are determined to remain a client-focused company, always listening and learning keeping our customers priority

Angle stands today with a dependent work force of more than 160 staff employees and more than 1000 labors.

Chairman Message

Being in the right place at the right time has been a blessing for me and a footstone towards the growth, success and prosperity of Angle General Contracting Starting out as an administrative engineer and witnessing the rapid and fierce growth of the UAE market has given me the knowledge and experience to move forward. Every graduate dreams of an opportunity like this; witnessing success, dreaming of success, and succeeding with a team of enthusiastic individuals with minds set on the flourishing and advancement of the company.

With a forward-looking vision and solution-oriented approach to projects, we have overcome pressure, hardships and obstacles to contribute to Angle's growth. The great value that each member of our experienced and motivated team adds to the organization doesn't go unnoticed. Today, with an ambitious approach to expanding and diversifying our activities, we stand committed to clients' satisfaction, integrity and continuous improvement.

Angle Vision

Providing construction solutions for our clients with the highest level of quality.

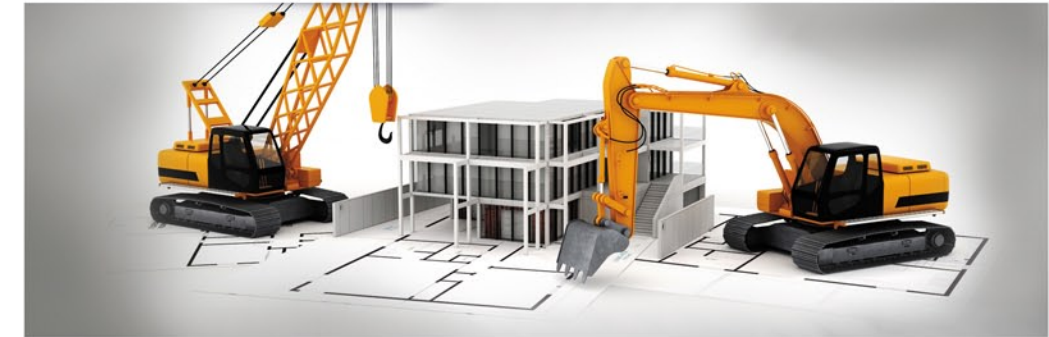

Angle Mission

Angle General Contracting will deliver high quality construction services and solutions in line with clients' needs.

Angle Business

General Contracting is a diverse contracting company; diverse in both what we build and how we build.

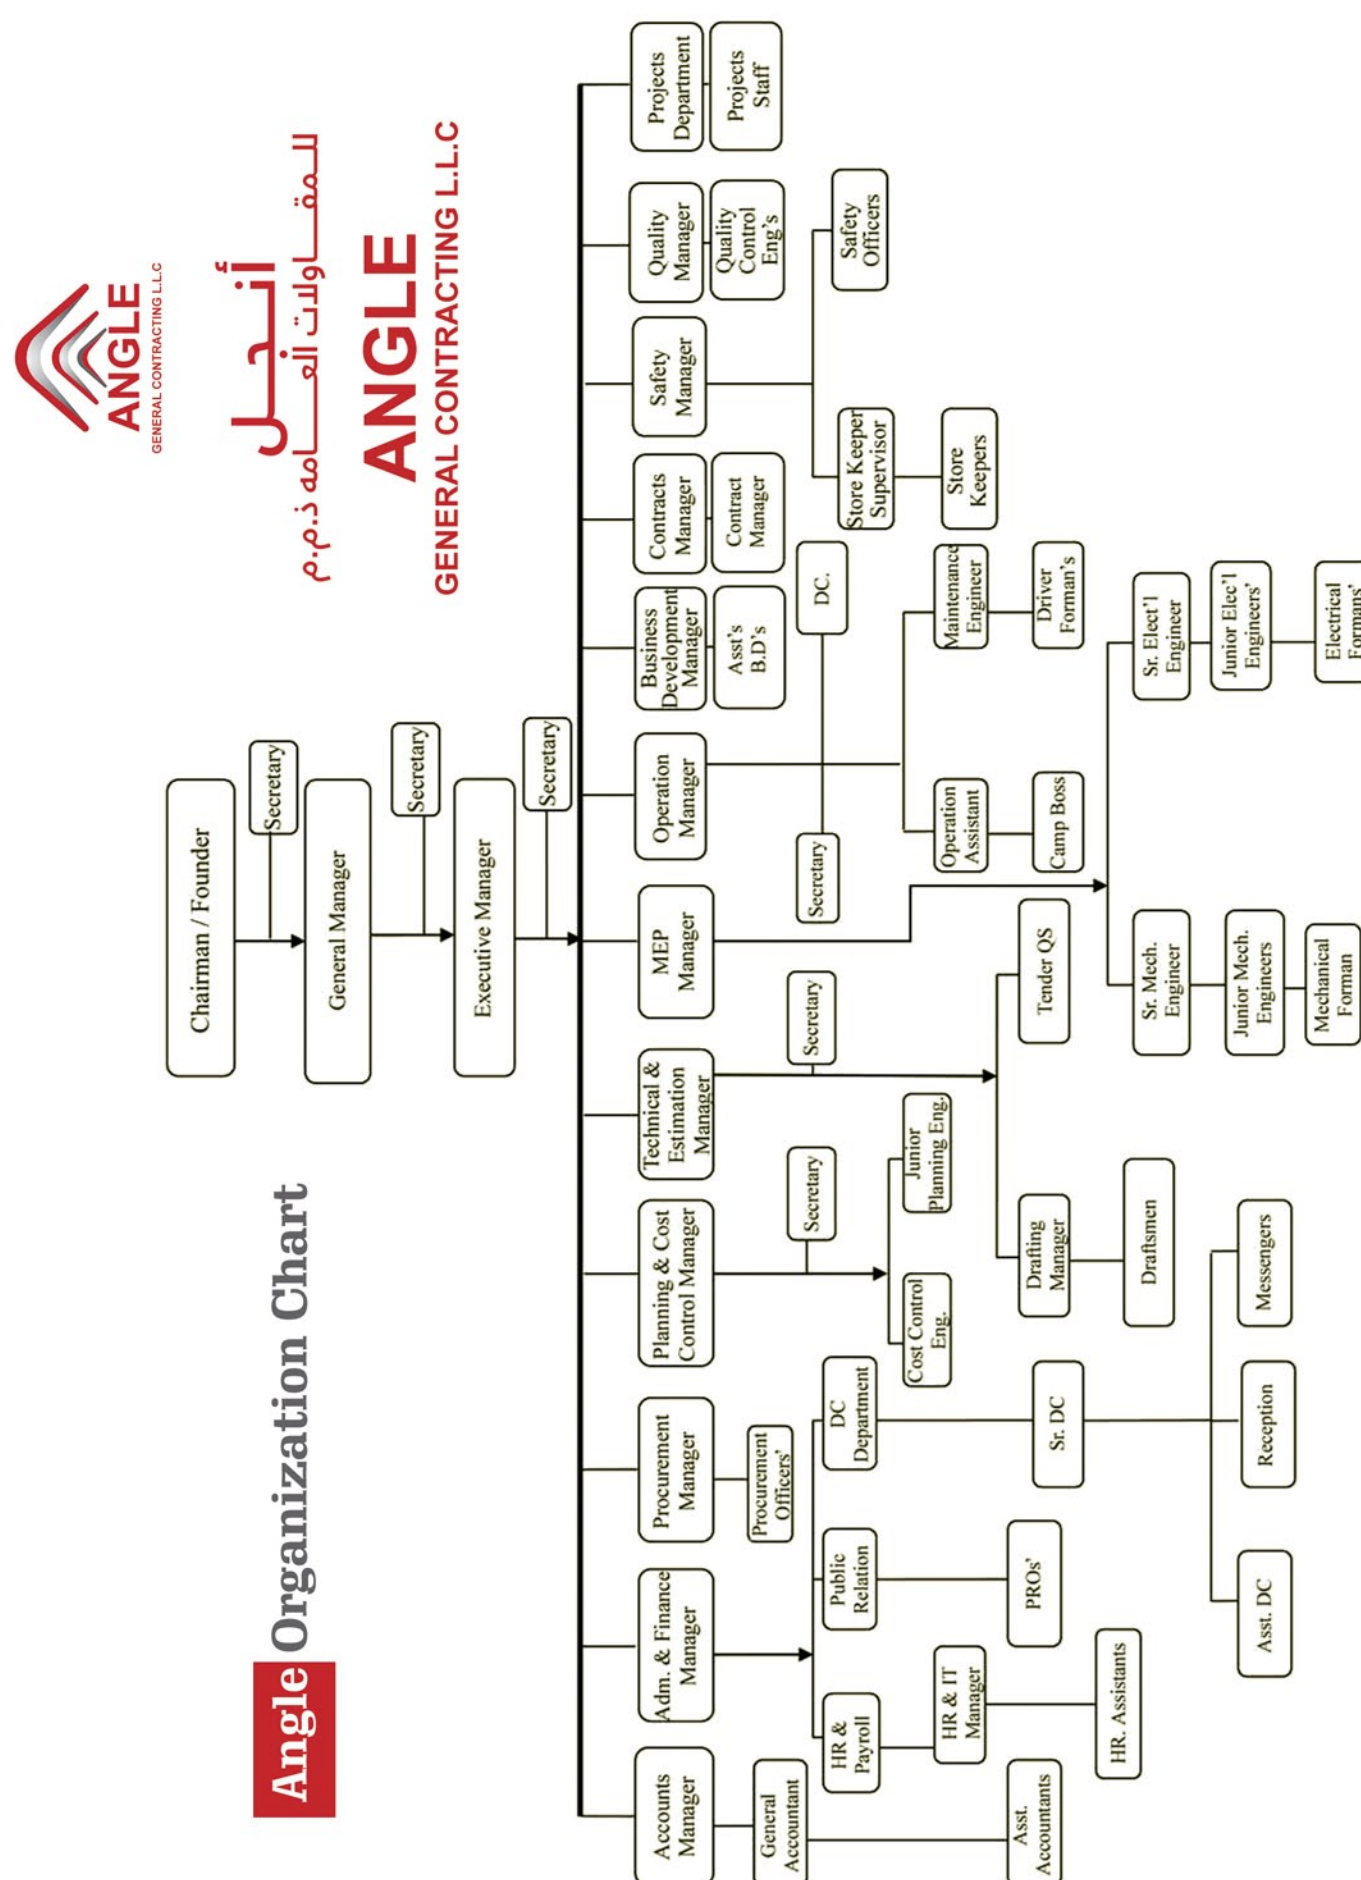

Who We Are!

Angle General Contracting presence has and continues to grow. The company's activities and experience benefit directly with each entry to a new market. A network of offices in the United Arab Emirates truly provides Angle with a diverse source of experience, human resource assets,

Angle Commitment

We are committed to delivering what we promise on time, on budget and with the envisioned function successfully met. Going into any new endeavor, we always listen carefully, first and foremost, to understand the scope and targets before thinking of how we can add value. Each and every execution is guided by our well defined processes and procedures in order to secure best results and deal proactively with potential risks.

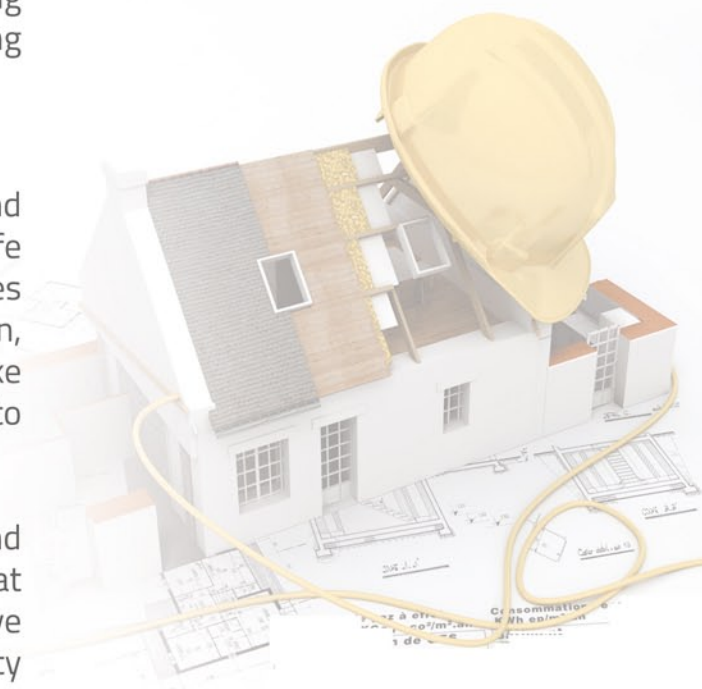

Health & Safety Policy

Angle General Contracting is committed to preventing the accidental loss of any of its resources, including employees and physical assets.

In fulfilling this commitment to protect both people and property, management will provide and maintain a safe working environment, safe systems of work, facilities for the welfare of all workers and any information, instruction, training and supervision needed to make sure that all workers are safe from injury and risks to their health.

All Management, Superintendents, Supervisors and workers are required to make every effort to ensure that Angle General Contracting meets all legislative requirements and maintains the highest safety standards.

Quality Policy

The aim of our quality management system is to ensure:

- ✓ To use the disciplines of ISO 9001 to develop and maintain the processes needed to produce a level of construction and project management of a consistent standard of quality and at competitive cost
 - ✓ To foster quality relationships with clients by effective communications with clients and encouraging feedback
 - ✓ To continually improve the effectiveness of the Integrated Management System.
 - ✓ To document and measure quality objectives and targets through internal audit and management review.
 - ✓ To deliver construction services in accordance with the specifications and requirements of our clients.
 - ✓ That every employee constantly aims to improve the overall quality of Company products and services.
 - ✓ That our staff are fully trained and involved in quality improvement.
- 

Angle Enviromental
